## **Skeena River:**

### **Skeena River is divided into four sections:**

- Skeena 1** (non-classified) Exchamsiks River downstream to the ocean.
- Skeena 2** (class 2 water) Exchamsiks River upstream to 1.5 km above Kalum River.
- Skeena 3** (non-classified) 1.5 km above the Kalum River upstream to 1.5 km above Zymoetz River.
- Skeena 4** (class 2 water) 1.5 km above Zymoetz River upstream to the head-waters.

**Fri March 1/19 6:13am**

River is very low and very clean...but lots of ice! A record number of summer-run Steelhead have moved up the river according to the **Tyee Test Fishery**; see charts below. Both fly and spin are working well. All Salmon fishing closed October 31st. Stay tuned...lots of options of where you can fish, guided or not. You are **ALL WELCOME** ☺ We are so blessed to have so many rivers, creeks and lakes to fish, oh did I say ocean out of Kitimat or Prince Rupert? WOW the variety...

**REPORT - Jan 15, 2019** from **Tracey John Hittel** of [Kitimat Lodge](#),

### **Looking forward to a fabulous fish guiding season**

During the spring season the Skeena River is quite low. The opportunity to hook numerous Steelhead is a great option as it's world famous and home to the record size Steelhead you see in many photographs.

Skeena tours are by Jetboat where we fish long runs which hold many Steelhead enroute to their tributaries of birth.

The mountains are painted with snow and the scenery and crisp mornings are a must.

Anglers can make their longest cast with a [Scandinavian line](#) with a light tip.

Again these Steelhead are fresh and hot and expect your reel to scream once you hookup.

March to May us your best chance and expect the start of the Chinook Salmon that come in May, these brutes top 20-40 pounds of pure silver so your gear has to be in top notch shape.

**[BOOK your preferred dates NOW](#) don't miss out!**

**Recommendation** from **Cuchulain Hammilcar** I've been fly fishing with Tracey and his **Steelhead Heaven** for the last 10 years or so. At the start the entire setup was good, now it is excellent. Tracey and his team have given me excellent value over the years. The rivers in his portfolio are some of the best in the world. For the fly fishermen/women out there I suggest taking a double hander switch rod with you. Tight lines...

**REPORT - Nov 8, 2018** from Tracey John Hittel of [Kitimat Lodge](#), Well the November snow has finally hit the mountains and making its way closer to the majestic Skeena and Kitimat valleys. This fall the Steelhead and Coho fishing was off the charts and pictured above are a few of the snaps we took of our clients from England, USA and Japan. All the Steelhead and Coho were in great shape and hot, making for epic fights on the [Sage](#) Spey rods. April will be your next opportunity for Steelhead, so please book your group early as space is already limited for this short season. Thanks again to all our guides and lodge staff and our new and repeat clients. Have a good winter ♥ I suggest you lock in some dates soon by contacting me **Tracey John Hittel** anytime via e-mail [tjhittel@telus.net](mailto:tjhittel@telus.net) or give me a call on my cell phone 250-639-4277.

**REPORT - Nov 5, 2018** from Tracey John Hittel of [Kitimat Lodge](#), **SEASON OPENER on April 1, 2019**. The above 4 pics were from season opener in 2014 and from all the experience we have we can expect the same in 2019. Steelhead on as many as five rivers, inland and coastal we do em all. We are licensed with rod-days to guide on section 2 of the Skeena and the whole Kalum River. We are already taking bookings and dates are filling in...so...if you and or group are interested I would suggest you lock in some dates soon by contacting me **Tracey John Hittel** anytime via e-mail [tjhittel@telus.net](mailto:tjhittel@telus.net) or give me a call on my **cell phone 250-639-4277**. Oh...and while you are here you should enjoy a feed of fresh Dungeness Crab from the Douglas Channel.

## News Bulletin:

**Fri March 1/19 6:10am**

**April Vokey** next podcast about the "famous" **Roy Henry Vickers**

The latest episode of Anchored is live and featuring [Roy Henry Vickers Gallery!](#)

Roy is a Grammy Award-nominated, Canadian First Nations artist. He is one of Canada's most revered artists and his work can be found in the Vancouver Airport and galleries around the world. I've been a fan of Roy since I was a teenager, so I was excited to have the opportunity to sit down with him at his home on the Skeena River.

In this episode of Anchored, Roy and I discuss culture and history, and the story of how he got to where he is today. We take a deeper look at our connection with nature, reflect on a dark part of Canada's history, and explore the desire to be our best selves.

Find the episode on iTunes, Stitcher and <http://www.themeateater.com/.../ep-111-roy-henry-vickers-on-a...>

Thanks for listening!

## **Understanding website statistics**

### **Page Views**

The “**page views**” statistics give a clear indication of site traffic. “**Page view**” measures the entire page, and tells you how many times people have visited that particular page. By understanding “**page views**” and knowing which pages are being looked at, you can determine the overall popularity of a site, and which pages within it are being viewed most often.

### **Visits**

“**Visits**” are one of the more useful measurements of web statistics. A visit includes all of the pages viewed by a visitor to your site. The measurement of “**Visits**” begins when a person enters your site and ends when the same visitor leaves the site or remains idle for a period of time (usually 30 minutes). Usually, one person visiting your site 15 times is counted the same as 15 people visiting one time each, so you can see, that while useful, the measurement is not perfect.

### **Unique Visitors**

This a more precise way to measure visitors to your site, as each person is counted only once, regardless of how many times they visit during a fixed time frame, typically 30 days. They are measured according to their unique IP address which is a number allocated by an ISP (Interpret Service Provider).

Please feel free to contact me [Noel Gyger](#) anytime and I will be happy to send you the latest statistics for our website via e-mail PDF attachment. Thank you for your interest.

This is the first post I have ever made to acknowledge the good works of people who make our lives that much more special. What a great day we had with a Kitimat Lodge Charter. It started by meeting Donny our guide for the day. He was awesome and did everything possible to make our day one to remember. Our outing started as a boat ride to the hot springs and became a trip of breathtaking moments. We all agreed that watching whales frolic on the water was the highlight of the day but a hot spring soak and Donny's masterful way of sharing his love for nature, fishing and his job were close seconds. Tracy and Kitimat Lodge come with the highest recommendation. Donny you are awesome and made our day trip one which will last a lifetime, we are thankful to have spent time on the water with you.

Some great shots of our Douglas Channel Saltwater fishing and jet boat trip!

The Chinook don't get any fresher than this ♥♥♥

This jet boat salmon fishing trip produced excellent catch and lots of fun.

Nothing like an impressive halibut catch!

The shrimp and crab-feast will be memorable.

## **MORE NEWS for 2018**

The Salmon season is now in full swing, Chinook Salmon are running the river and all chrome bright fish. Saltwater fishing is also productive as the Halibut are biting quite nicely as well the Prawns and Crab are filling the pots.

A full line-up of guests will be flooding the area for the massive runs of migrating Pacific Salmon, so stay tuned for more awesome pics.

I also had to attach a pic of the Disney cruise ship we saw while fishing near Hartley Bay, tight lines.

## **Kalum River:**

**Fri March 1/19 6:07am**

River in great shape. Good Steelheading now and will continue all winter. Guiding is over for another year but if you need a guide in the spring starting April 1st to show you how and where just [contact me](#) anytime. **Note:** Bait ban Jan 1 - June 15.

**REPORT - Jan 15, 2019** from Tracey John Hittel of [Kitimat Lodge](#),

**Be part of the SEASON OPENER April 1st**

The Kalum is a tributary of the Skeena and is a river of amazing beauty, only a few of us have the opportunity to guide this river as it's classified.

The steelhead in this river are a mixture of summer, winter and spring steelhead. All by jetboat the Kalum is a Spey fisherman dream, with pools that not only look juicy they fish better.

Many big boulders make this river majestic and the Steelhead like to hide in behind them.

Not to mention the Chinook Salmon of immense size and quality will frequent during your trip. The season runs from April 1 to May 23 . [BOOK your trip NOW](#) don't be disappointed.

We called this boat our "**Super Boat**" it was a 19 foot fibreglass drift boat with wooden frame completely covered in plastic. We had a propane heater, kept us toasty warm and we kept Steelheading all winter no matter what the weather. Sorry this pic does not show much of it. I thought I had better pics, I searched my files today but could not find them. The angler above is Terry Munday; I think the temperature outside was -12C. I took this pic from the **Podcast**:

<http://www.noelgyger.ca/Podcast/podcast0006.mov>

The **Podcast** was all about the members of the **Kalum Drifting Club** and all the fun we had :-)

To watch ALL the **Podcasts** cast on this link: <http://www.noelgyger.ca/podcast.htm>

**Note:** in those days we didn't take many pics using the current "*Keep `em Wet*", but we did care and tried to keep the Steelhead out of the water for no more than a couple of seconds if at all. *Long live our wild Steelhead...*

In May of 1991 I did a TV fishing show on the Kalum River with **Larry Schoenborn FISHING THE WEST** fame! Wow, that was 26 years ago and my beard is not full gray and look at those neoprene waders:-) Our plan was to catch both Chinook and Steelhead on the same day and I must say "*we did it*" !

## Kalum River videos:

This is how it looks when you are trying to drink your coffee and you are blasting up the lower Kalum River at 48 MPH.

**TITLE of this video:** **Rocket Boat Steelheading** - play time 5:48 minutes.

**TO WATCH VIDEO cast here:** <https://www.youtube.com/watch?v=8QPTv4kOZd8>

**VIDEO INFO:** I had the pleasure of fishing with Calvin Higano, Ron Wakita and Glen Kilcup on the Kalum River on Tuesday morning, April 20, 2010 for about four hours. Glen invited us on this trip with his Jet boat crack of dawn. We hooked 4 Steelhead and landed 2 plus a bunch of Trout. We landed one Steelhead using a silver **BC Steel** spoon with 3 **OTT Gamagatsu** <http://rapala.ca> Siwash hook rigged up on a 7' **Trophy XL** rod <http://redlsports.com> and an **Abu Cardinal 704** <http://www.purefishing.com> Spinning reel spooled up with 30lb **Tuff line Duracast** <http://www.tuff-line.com> This rod and reel Combo handled this Kalum River Steelhead very nicely and was caught and released using **Gibbs Catch and Release Net** <http://www.gibbsfishing.com> The **Gibbs C & R Net** has a very soft mesh which allows anglers to net Steelhead and release them unharmed back into the river. Calvin landed the other Steelhead using a **Sage 2106** rod and a **Shimano Calcutta 250TE** reel <http://fish.shimano.com> Calvin was the "Hot Rod" on this trip! Calvin landed one and had another 2 Steelhead on which released themselves (AKA long-line-release) after a bit of a tussle. Calvin is a very gifted angler who has brought some very effective Steelheading techniques to the North West. One of his techniques Calvin calls "Dredging" and another would be the method which he cures his bait. Calvin uses **Pautzkse's Pink Fire Cure** on both his Chinook roe and on his Prawn bait. As most Steelheaders already know the quality of the bait is critical to Angler success. A huge **THANK YOU** to Glen for an awesome morning fishing trip on the Kalum!

**Here is some info on Glens custom Rocket Jet Boat:** This boat has a top speed 48 MPH with 450 HP pushing water through a **Hamilton Jet** with a 10 inch impeller. When this thing takes-off, hold your hat and hang on! The **Teflon** bolted to the bottom of the boat allowed us to skim over the shallowest of water.

## **Kitimat Ocean (Douglas Channel):**

**Fri March 1/19 6:06am**

**REPORT - Nov12, 2018** from Tracey John Hittel of [Kitimat Lodge](#), Halibut and winter springs have arrived want to get out this month call Kitimat Lodge. Have a good winter ♥ Oh did I say get some Dungeness Crabs too ???

Fri December 7/18 5:40am

So... you need a little "hint" how the Coho fishing is going in the Douglas Channel this time of year? May **Ron Wakita** and I highly recommend you watch this video, I won't say anymore the video speaks for itself. Warning it plays fish, just about non stop and folks eating, having fun....I will stop now... please enjoy the 12 minutes. Noel [noel@noelgyger.ca](mailto:noel@noelgyger.ca)

[https://www.youtube.com/watch?v=x9jljMwgi\\_k](https://www.youtube.com/watch?v=x9jljMwgi_k)

Douglas channel have been producing lots of Coho this past week. We are still seeing the odd Chinook on the outer banks of the channel, but most of them have moved south to spawn. Over the past week we have seen really good action around Money Point and Turtle Point. Fishing over top of where the Queen of the North went down can be very productive as well. An anchovy or cut plug is always my go-to when starting to troll down the Douglas until I can figure out what the fish are to key in on. If you find that you are getting hit on a cut plug, put on a larger spoon in the 5-6inch range. If they are hitting the anchovy when put something a little smaller on. If they don't like what you're offering, switch it up! I typically keep roughly 20-30 different spoons in assorted sizes and colors in the box. You never know what's going to be hot at any given time.

## **Kitimat River:**

**Fri March 1/19 6:06am**

**Kitimat River;** Iced over. All Salmon fishing closed October 31st. One can still angle for Trout, etc.

**REPORT - Jan 15, 2019** from Tracey John Hittel of [Kitimat Lodge](#),  
**LOOKING FORWARD to early spring fish guiding**

Each spring the Kitimat River receives its finest and freshest run of steelhead, this small non motorized, rafting river is freestone and easy to wade.

We drift from pool to pool in 1-2 person rafts in search of the migrating grey ghost.

Spring steelhead arrive in March and when they enter the river they are hot to catch on the fly.

We recommend a 7 or 8wt single handed or switch rod with a 400-500grain line. Sink tips we recommend 10ft of T14 or Rio multi tip systems for different depths. A proper reel with lots of backing and a good drag system is recommend.

The Kitimat Steelhead like the shallow fast water and you can see them chasing your fly which makes for exciting fishing.

From beginner to seasoned fly anglers we make Kitimat our home river and very convenient for the Kitimat Lodge guests. Having our lodge located near the river is what draws Steelhead anglers to Kitimat.

Our local guides are born and raised on the river and can locate the elusive Steelhead while your take one of our many Steelhead tours.

Take the challenge and book for the month of April.

[BOOK your trip NOW](#) don't be disappointed.

**District of Kitimat Council** voted Monday September 18 five to two to create a “working group” of “concerned citizens and community groups” to consider the future of riverbank camping along the Kitimat river. The working group will consider issues such as access to the river, pollution and how to control extended camping along the river. [Cast here](#) for more information.

### **Testimonial**

#### **My Number one "recommendation" for World Class Steelhead and Salmon Fly Fishing**

Hi Folks, early on in my now 25 year fly fishing career I went on a lot of expensively disappointing fishing trips. Then in 2006 I discovered **Tracey** and his **Steelhead Heaven** outfit in beautiful British Columbia and have been going back ever since. The main rivers he fishes, the Kitimat, the majestic Skeena, and the Kalum are beautiful and abundant. Tracey and his guides are knowledgeable and well equipped and I advise you to listen to what they tell you (although many guests don't). You can fish single or double hand but there's no double that a Switch or Spey rod is more effective and energy efficient. Tracey's mission is to get you into the best fishing runs - then it's up to you! I also recommend staying at the Tracey's [Kitimat Lodge](#) where there's often same day caught crab on the evening menu. **CU in 2019! Best...**

## **Recommended Fly Fishing Gear:**

Courtesy Chad Black [Nicholas Dean Outdoors](#)

In the low water conditions of early April, we generally used light sink tips to cover the shallow riffles and tailouts where Steelhead were holding. Type 3 and Type 6 tips were generally all that was needed for most conditions. With the higher flows of late Spring, and in particular on the tributary rivers, we've also been using Rio's MOW tips in a variety of weights and lengths to get the fly down to the fish. The Heavy MOW tips, made of T-14 material, have been particularly useful, in lengths of 5, 7.5, 10 and 12.5 ft.

As with March, best colours have been pink, black, blue and orange. When fishing the Skeena and its tribs, larger flies from 2.5" to 4" in length have been most productive. Smaller flies in a variety of weights in the 1" to 2.5" range have worked the best on coastal rivers.

When targeting Steelhead, we've been using rods in the 12.5' to 13.5' ft range, for a 7 or 8 weight line on the larger rivers. Our personal favourites for this fishing include the 7126 **Sage TCX** and the 8139 **Loomis Dredger**. When targeting Chinook specifically, we've been using heavier 9 and 10 weight rods in the 13' to 15' range. Single hand rods and switch rods have gotten the nod on the coastal rivers. In particular, I had a chance to fish a 8116 **Sage One** rod and can confirm that it's a very good rod that's ideally suited to the coast!

**Rods, Reels, Lines:** For Steelhead - Spey rods in the 12' to 14' range, with a **Skagit** head to match. A 7126 TCX paired with a 500 grain **Skagit Flight** and **Loomis 8139 Dredger** with a 525 grain **Skagit** are excellent choices. A good quality disc or cork drag reel (e.g. **Islander** and **Ross**) with a minimum of 150 yards of 30 lb backing. For Spring Chinook Salmon, same as above, except with heavier gear - 9 weight minimum, 10 weight better.

**Sink Tips and Tippet:** A 15' Type III and 15' Type VI for most shallow water applications, and a variety of **MOW** tips - medium (T-11) and heavy (T-14) for deeper and/or heavier water. Always 15 lb **Maxima Ultragreen** for Steelhead. Increase tippet to 20 lb **Maxima Ultragreen** if targeting Spring Chinook.

**Flies:** **Idylwilde** String Leech, Bunny Tube, Marabou Tube and Popsickle, in shrimp pink, cerise, black, blue and orange.

Prince Rupert has been fishing well over the last week. I have had reports of good halibut and ling fishing, as well as, anglers getting their limits of Coho. The coyote 4.0 in the live image or cop car finish have been winners this week with a lot of 8-12lb Coho brought in. We have seen the odd Northern Coho showing up. These fish can get into the 20lb+ range and you'll never forget hooking one. It's like fighting an acrobatic chinook and hooking one will leave your arms sore and wanting more. ## Historic Agreement Curtails Salmon Farming in the Broughton Archipelago

VANCOUVER: Living Oceans congratulates the First Nations of the Broughton area on the success of their epic battle to protect the wild salmon of their territories. Today, the Nations, the Provincial Government and salmon farming companies announced a partial withdrawal of farms from the region, together with measures to limit the impact of others.

Indigenous people from [Kwikwasut'inuxw](#), [Haxwa'mis](#), [Nanogis](#) and [Mamalikulla](#) First Nations have been engaged in talks with the Province and the salmon farming industry for several months. Talks were established only after an unprecedented occupation of the Swanson farm and extensive media coverage.

"We are indebted to the Nations for their steadfast refusal to accept the decimation of local fish stocks," said [Karen Wristen](#), Executive Director of Living Oceans Society. "We sincerely hope that other First Nations concerned with the impact of salmon farms in their territories will be able to establish talks without having to resort to occupation of local farms."

Attention now turns to the Discovery Islands area south of the Broughton, where migrating salmon must pass through a bottleneck dubbed the "Wild Salmon Narrows", where several more farms are located. This is the area that Justice Cohen focused on in his inquiry into the disappearance of Fraser sockeye, recommending that farms be removed by 2020 unless it could be shown that they have 'no more than minimal' impact on wild salmon.

"It has become increasingly clear that salmon farms are having a major impact on wild salmon throughout the province," said [Wristen](#). "With salmon lice now showing resistance to the only drug available to treat them, we can expect impacts to increase. Removing farms from wild salmon habitat may be the only answer."

Morton wins case against DFO on fish farms

If the mere presence of PRV in farmed Atlantic salmon smolts is sufficient to prevent

licences from being issued, that could be devastating for the fish farm industry

## **Why I am in Court with the Minister again..**

Hello, I am in court next week to stop piscine reovirus from entering BC waters. I already won this case, but the Minister of Fisheries refuses to acknowledge the court's decision. The Namgis of Alert Bay have filed a lawsuit to stop the Minister of Fisheries and Marine Harvest from putting piscine reovirus-infected farm salmon into their territory. A reasonable request as this is the law. These cases will be heard together Monday - Friday September 10-14, 701 W. Georgia St., Vancouver.

This is a critical moment for the salmon farming industry, because they are so heavily infected they state they will be "severely" impacted if they can't grow piscine reovirus infected fish in their farms.

By the end of the month, the BC government talks with Broughton Nation governments will decide the fate of the salmon farm tenures in the archipelago.

## **Saving salmon - Black ops and a sailing ship**

Hello, Below is a link to an update on my efforts to protect wild salmon from salmon farms. I have hope we will be successful, but it is now a race against extinction of some wild runs. However, so many people are involved now that wild salmon have a much better chance for survival.

On September 10, the real fight begins as my lawsuit with Ecojustice and a Namgis lawsuit are heard together in Vancouver to halt the dirty practice of transferring piscine orthoreovirus infected Atlantic salmon into salmon farms on the BC coast. This is against the law in Canada, and I already won a case ruling that the Minister of Fisheries must screen farm salmon for this virus, but he has chosen to ignore this decision.

We have vessels hired by Marine Harvest following us everywhere; they have blacked out windows, more aggressive than smart for an industry on thin ice. However, a court ruling last week gave me permission to continue sampling near Marine Harvest farms, so the research into their impact continues.

This fight continues to escalate.

The Northern Branch is getting busy with our third smolt/fingerling rescue campaign. With the hot weather these little guys have been cut off from the main flow in a man-made pit and will eventually succumb to the heat/lack of oxygen as the pool dries up. With the blessing from DFO we are transferring trap caught juvenile salmon, trout and sometimes char back into the comfortably cool river. This is a stop-gap solution until we see this former gravel pit filled and reclaimed. So far this season we have rescued 330 fish.

### Dungeness Crab Feast

I am starting to post my "older" video clips on my **YouTube Channel** when I was still a fishing guide. I posted the first one yesterday. Title is Dungeness Crab Feast. Now, when I say older this one is 27 years old...but beauty I think, starring my two **BEST** friends and fishing buddies the late **Ed Schulmeister** and **Lester Bryant**.

Here is the direct link to the under 2 minute video:

**My honour to meet Jim Teeny** - by Noel Fredric Gyger

I first met the legend **Jim Teeny** in the early 90s when he came out with the late **Larry Schoenborn** to shoot a fly fishing Steelhead TV show on the Kispiox River. Larry had asked me if I could supply two drift boats, I said sure, no problem. It was an honour to be asked. One boat for Jim and Larry and one for the TV crew. I rowed one boat and my dear friend, the late **Ed Schulmeister**, rowed the other. My boat took Jim and Larry and Ed took the camera crew.

The regulation on the Kispiox is power boat ban and you cannot fish from the boat, the boats can be used for transport only. We launched above the **Sportsmen's Lodge** for a drift of about 6 miles. We covered a lot of water and fished many tail-outs and pools. Unfortunately we did not have any luck higher up. It wasn't until we got to our take-out where we found the Steelhead and Larry's camera crew shot a wonderful show.

**Larry Schoenborn** produced "**Fishing the West**" TV show and "**Larry's Travel Agency**" out of Portland Oregon, USA.. Ed and I were not paid but all our expenses were covered by Larry. I can honestly and proudly say Ed and I thoroughly enjoyed the experience. Jim had fished the river a few years back and knew a few of the runs, but at that time did not have a boat therefore his fishing was limited.

When the shoot was over and we were back in Terrace I invited Jim and Larry to fish on a few of our local rivers. We fished on the **Zymoetz (Copper) River** and a small tributary called the **Clore**. On the Clore, Jim landed a beauty. Larry could not fish as he had injured his right hand. We also fished the **Lakelse River** which at the time was crowded with anglers fishing for Coho. Jim blew away anglers with his casting skills by using his world famous "Teeny" lines and an assortment of "Teeny" flies. He could cast from one side of the river to the other with no effort. WOW did this look good.

From this trip we gained a lot of guiding business for my lodge. Jim knew many people. Many of them from Hollywood, such as movie star agent **Skip Brittenham**. Jim came back the next year with his wife

Donna and Skip and his wife actresses **Heather Thomas**. **Henry Winkler** (the Fonz of "**Happy Days**" TV show) was supposed to be along but had to cancel last minute.

I fished with Jim and Donna on the **Kitimat River** in May of 1991 and landed a very nice Steelhead with one of Jim's flies, it was a **Black #2 Teeny Nymph** and a **T-300 Teeny line**. Before Jim's group left for home I bought a Jim Teeny Fly Vest for myself and a bunch of Teeny Nymph flies to sell at my lodge **Tackle Shop**.

## **West Coast of Vancouver Islands, BC Rogers Fishing Lodge**

**Fri March 1/19** 6:05am

**Rodgers Fishing Lodge** is located on the west coast of Vancouver Island about 90 miles due west of Campbell River in Esperanza Inlet. Rodgers is one of the busiest fishing lodges on the B.C. coast, entertaining over 1200 guests a year. They also enjoy one of the longest seasons on the coast running from May 1 to September 30.

This will be their 33rd year in the Sport Fishing business and 25<sup>th</sup> year in Esperanza Inlet. Rodgers has shown a remarkable rate of growth over the past 4 years. Their gross revenue has more than doubled since 2010. The Lodge has a location second to none as it is ideally situated to take advantage of some of the most outstanding fishing opportunities on the BC coast for Salmon, Halibut, Bottom Fish and Tuna.

Black Bear and Bald Eagles are regularly seen by the lodge. They have the largest colonies of Sea Otters on the coast and the Gray, Orca and Humpback Whales pass by on their way to and from the Bering Sea.

The owners love the business, but feel now is the time to turn the reins over to someone younger who shares the same passion for the outdoors and who is looking for a wonderful rewarding lifestyle.
